COPYRIGHT STATEMENT

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted materials including foreign works under certain conditions. In addition, the United States extends protection to foreign works by means of various international conventions, bilateral agreements, and proclamations.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

The Columbia University Libraries reserve the right to refuse to accept a copying order if, in its judgement, fulfillment of the order would involve violation of the copyright law.

SUBMITTED BY MR. HAYDEN

IN THE SENATE OF THE UNITED STATES,
March 28 (calendar day, March 29), 1934.

Ordered, That the letter from the Administrator of Public Works transmitting, pursuant to Senate Resolution No. 190, a report of the business of the Federal Emergency Administrator of Public Works for the period ending February 15, 1934, be printed as a document.

Attest: EDWIN A. HALSEY, *Secretary.*

FEDERAL EMERGENCY ADMINISTRATOR OF PUBLIC WORKS,
Washington, March 22, 1934.

To the Senate of the United States:

I have the honor to submit a report of the business of the Federal Emergency Administration of Public Works, containing the information requested by Senate Resolution 190.

Respectfully,

HAROLD L. ICKES, *Administrator.*

SENATE RESOLUTION 190, SEVENTY-THIRD CONGRESS

Resolved, That the Administrator of Public Works is hereby requested to furnish the Senate the following information:

(1) A general survey of the Public Works program.

(2) An account of the organization of the Public Works Administration.

(3) A statement of the policies of the Public Works Administration.

(4) A statement of allotments under the Public Works Act and the number of men employed.

(5) A list of Federal and non-Federal projects approved.

(6) A list of Federal and non-Federal projects pending in the Public Works Administration at Washington and in the offices in the several States.

Approved, February 15, 1934.

REPORT OF THE FEDERAL EMERGENCY ADMINISTRATION OF PUBLIC WORKS

Part I. GENERAL SURVEY

On June 16, 1933, the National Industrial Recovery Act was put into force as a means of using the public program for the improvement of business. The summer of 1933 was occupied in building up an organization of experienced technicians in engineering, law, and finance and the necessary complement of clerical employees. The available Federal projects were rushed through as fast as possible. Since the Federal agencies had completed their plans, these projects offered the quickest means of getting the construction program started. Private and local projects were slow in making their appearance because some little time was required for the local authorities to determine on desirable forms of work and adapt them to the administrative requirements of the act. State organizations were set up to examine proposed projects and give the central administration the benefit of local knowledge of conditions.

While awaiting the development of new local projects, the Administration examined 526 projects turned over to it by the Reconstruction Finance Corporation. Owing to the severe financial restrictions imposed on the Reconstruction Finance Corporation by the Emergency Relief and Construction Act of 1932, there were many projects that could not be carried forward by that organization, but which could be allowed to proceed under the more liberal terms of the National Industrial Recovery Act. These projects were reexamined by the Administration in the light of the requirements of the present act.

It may be interesting for those who have not followed in detail the operations of the Public Works Administration to know the methods of procedure adopted for handling proposed projects.

In Washington, all local projects are examined by the Engineering, Legal, and Financial Divisions, where they are given a thorough study as to the physical soundness and adequacy of the proposed work, the question whether it comes within the act and whether the applicant has legal authority to undertake such work, and the question whether the applicant can stand the financial strain consequent upon borrowing for the purpose intended. The personnel of these divisions has been carefully selected to include specialists in many lines. In some cases where the technical questions involved are simple, a project can be quickly passed or rejected; in other cases elaborate study and lengthy correspondence are required before one or another of the divisions can arrive at a conclusion. In all cases the number and character of the technicians who check the final decision is such that the chance of illegitimate influence is remote. The decisions are made

in accordance with the best judgment of competent technical men on technical grounds, under the provisions of the act.

Selecting projects.—If favorable reports are rendered by the three examining divisions, the project is referred to the Deputy Administrator and to the Administrator, and the latter, if it meets with his approval, submits it to the Special Board for Public Works. This Special Board consists of the Secretary of the Interior, chairman, the Attorney General, the Secretaries of War, Agriculture, Commerce, and Labor, the Director of the Budget, Henry M. Waite (the Deputy Administrator), and Assistant Secretary of the Treasury Robert (in charge of public buildings). The function of the Special Board is to consider all projects in the light of general national policy. If a project is passed by the Special Board, it goes to the President for final consideration and approval or rejection. The act does not establish the mandatory right of all technically eligible projects to receive Federal aid. The President, and under his authority, the Special Board, may exercise discretion in choosing such projects as, in their judgment, are most beneficial under the circumstances at any particular time, rejecting others that are eligible under the act.

Reviewing rejected projects.—In case a project is recommended for rejection by the examining divisions, it is referred to the Technical Board of Review, a body of engineers in private practice, who are called to Washington from time to time to sit as a court of appeals. The Board has a permanent chairman and a staff of regular examiners, who sort out the rejected projects and eliminate those which are hopelessly ineligible under the act, leaving for the Board to consider in public hearings, only those where there is reasonable question as to the facts or the policies involved. No member of the Board sits in any case in which he or any of his clients has an interest. Cases that have been recommended for approval, but have been protested by other interests, are also referred to the Board, as well as an occasional case of such unusual size or nature that the Deputy Administrator desires the Board's opinion on its technical features. When public hearings are held, the members of the Board study the case in advance, and after the hearing, question the examiners who have previously studied the case. Finally a recommendation is prepared for the Deputy Administrator, who determines whether to carry the project further or let it drop.

Housing projects.—Housing projects are examined by the Housing Division, which consists of technical men experienced in housing design and construction, and has its own staff of legal and financial advisers. Experience has unfortunately shown that many of the private housing projects submitted were conceived rather as means of utilizing unsuccessful land subdivisions controlled by the applicants, than as means of meeting a definite need for low-cost housing. The danger of involving the Federal Government in speculative building of a type that would quickly blight and render the housing situation worse instead of better, has had to be constantly kept in mind. So few indeed, were the desirable and eligible projects submitted, that the Administration has formed the Emergency Public Works Housing Corporation, through which the Government can make a beginning by initiating suitable projects where they are most needed. At the present time, the possibility of a completely satisfactory solution of the housing problem is impeded by the fact that in many places where new construction is desirable, the cost of land makes low rentals impossible. The present program is therefore confined to exploratory work and to demonstration projects placed where a fortunate combination of need and low land costs makes immediate construction feasible. The ultimate solution of the problem of locating and building low-cost housing in accordance with national, city and regional planning, awaits the development of means for dealing with the question of land values.

Miscellaneous projects.—Coordinate with the other examining divisions are special divisions for the consideration of Federal projects initiated by other departments of the Government, and of transportation loans, made to railroads under section 203 (a) (4) of the act. The Division of Subsistence Homesteads, to handle projects provided for in section 208 of the act, was detached from the Public Works Administration and established as a bureau of the Department of the Interior.

Making loans.—After a project has received final approval by the President, the sum required is definitely allocated, and the project is returned to the Legal Division for the preparation of an agreement covering the loan, or grant, or loan and grant provided for in the allocation. In the case where the applicant is a private corporation the proceedings are relatively simple, as the legal formalities involved in the issuance of corporate bonds do not, as a rule, involve a necessarily long lapse of time. But where the applicant is a public body considerable delay is generally to be expected. The States have established a definite procedure that must be followed whenever a political unit of the State issues bonds or financial obligations of any kind. This procedure includes giving public notice of intention to act. In some cases the notice requires a period as long as 90 days between one step of the process and the next. No attempt to shorten the required time is permissible, since the courts have held that if any legally prescribed act is omitted in the issuance of public bonds, the lender is deprived of any right to collect on the bonds.

Another difficulty has appeared in certain States where the legal powers of the municipalities and other local bodies were not such as to permit their conforming to the requirements of the act. In such cases the Administration has endeavored to cooperate with the State legislatures in formulating new enabling legislation that would permit Public Works loans in States where they would otherwise be impossible. The clearing away of obstacles of this kind is necessarily a slow process, which persists as a source of delay up to the present time. This feature will naturally be of less importance from now on, as more and more of the local projects complete the necessary processes and become actual employers of labor.

Inspecting construction.—When contracts have been let and work begins in the field, the Inspection Division assigns the necessary inspectors to see that the work is well and honestly carried on, and that the specifications and the provisions of the National Industrial Recovery Act are faithfully observed. As the non-Federal projects come into action in larger numbers, the size and importance of the Inspection Division will necessarily be greatly increased. The same is true of the Accounting Section, which will have to keep track of loans made, and securities taken, and also to examine in detail the expenditures on local projects.

NATIONAL PLANNING

While the major portion of the effort of the Administration has been devoted to the immediate problem of getting money into action and men into jobs, the larger problems of national planning have been considered, as provided by the act. The National Planning Board has begun a series of long range studies into the relation of public works to the many other factors in social and economic life. A Mississippi Valley Committee has been established to pass upon the immediate projects having to do with the control and utilization of that river, and also to formulate a general long range program of action covering such questions as flood control, power, irrigation, soil erosion, and navigation. The development of a national program of adequate size to utilize and recirculate the surplus national income, and to provide long-time employment for the permanent surplus of labor, will be greatly stimulated by the findings of this Committee. In addition, the various working parts of the Administration have gathered a considerable fund of experience in the limitations and possibilities of Federal public works.

Part II. THE ORGANIZATION, FUNCTIONS, AND PROCEDURE OF THE PUBLIC WORKS ADMINISTRATION

The Public Works Administration was established on June 16, 1933, in accordance with "An act to encourage national industrial recovery, to foster fair competition, and to provide for the construction of certain useful public works, and for other purposes", approved June 16, 1933.

By Executive order of that date the President of the United States appointed "a Special Board for Public Works consisting of the following: The Secretary of the Interior, chairman; the Secretary of War; the Attorney General; the Secretary of Agriculture; the Secretary of Commerce; the Secretary of Labor; the Director of the Budget; Col. George R. Spalding, and Assistant Secretary of the Treasury Robert."

The same Executive order appointed Col. Donald H. Sawyer "to exercise temporarily the office of Federal Emergency Administrator of Public Works" and authorized him "to employ such personnel on a temporary basis as may be approved by the Board."

On July 8 the temporary appointment of a Federal Emergency Administrator was terminated by an Executive order appointing "Harold L. Ickes to exercise the office of Federal Emergency Administrator of Public Works." As Secretary of the Interior, Mr. Ickes had from the outset by Presidential designation been chairman of the Special Board for Public Works.

On July 24, by Executive order, Col. Henry M. Waite, who had been selected as Deputy Administrator by the Administrator with the approval of the Special Board, was designated a member of the Special Board as successor to Col. George R. Spalding. Since that date the composition of the Special Board has not been changed.

Assistant Secretary of the Interior O. L. Chapman has served as Executive Secretary of the Special Board since the beginning.

THE SPECIAL BOARD FOR PUBLIC WORKS

Functions.—The Special Board for Public Works has had three main functions: (*a*) To advise the President upon all major matters of policy arising in connection with the administration and interpretation of those portions of the National Recovery Act that relate to public works; (*b*) to advise and confer with the Administrator on major appointments in the Public Works Administration and other major matters of administration and procedure; and (*c*) to pass upon all recommendations for allotments to applicants of Public Works funds, either as loans or grants. The actual allotments are made by the President of the United States upon the recommendation of the Special Board for Public Works, of which the Secretary of the Interior, who is also Public Works Administrator, is chairman.

Activities.—At the outset the Special Board had necessarily to devote its energies largely to the consideration of major matters of policy and to important questions of appointments, organization, and

procedure. After these major matters were determined, the third function of the Board, that of passing upon recommendations to the President for allotments, became the dominant one as far as time required is concerned. For this purpose the Special Board meets regularly twice each week. When the designated members of the Board are, because of pressure of other duties, unable to attend, they are represented by alternates. The chairman of the Board, the Administrator of Public Works, is personally present at all meetings.

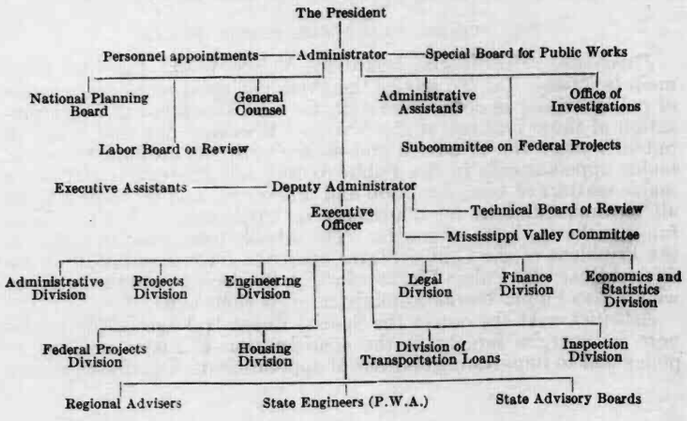
Procedure.—The procedure in discussing and advising upon matters of policy and of organization and procedure needs no special comment. In all major matters it results in the passage of resolutions which are embodied in the minutes of the Board.

In passing upon allotments the Board has before it a resolution approved by the Administrator of Public Works. This resolution represents the results of careful investigation made by the various units of the Public Works Administration under the Deputy Administrator of Public Works, who generally presents the resolution to the Board. Non-Federal public works, exclusive of slum clearance and low cost housing projects and transportation loans, are examined in divisions specially created to deal with them. Slum clearance and low cost housing projects are originally referred to the housing division, transportation loans to the transportation loans division. Federal projects are submitted by the various Government agencies to the Federal projects division and go from that division to a subcommittee of the Special Board created to pass upon Federal projects. The Special Board passes upon all recommendations for allotments and if it approves them by a majority vote of those present at the meeting they are submitted to the President for approval.

GENERAL ADMINISTRATIVE ORGANIZATION

The general organization of the Public Works Administration down to and including division heads is graphically set forth in the accompanying chart.

Organization of the Public Works Administration



At the head of the organization is the Administrator, whose powers are plenary and subject only to the control of the President. He has complete supervision and direction of the Administration. Assisting him personally are the Office of Investigations, two Administrative Assistants, the Labor Board of Review, the National Planning Board, and the General Counsel of the Administration as personal legal adviser. All personnel appointments are made by the Administrator through a division of appointments attached to his immediate staff.

Directly under the Administrator is the Deputy Administrator. He is assisted by four Executive Assistants and by the Technical Board of Review which reports directly to him. Subordinate to the Deputy Administrator is the Executive Officer. His functions are to coordinate and regulate administrative procedure for all divisions and to act as Deputy Administrator in the event of the Deputy Administrator's absence. He also has complete control of the administrative aspects of the State offices and is within the Administration the head of the Administrative Division. This division superintends purchases, personnel, mail, files and correspondence, accounting, transportation and vouchers, and pay rolls. Coordinate with the Administrative Division are the three examining divisions for non-Federal projects, Legal, Finance, and Engineering; and the Projects Division, which coordinates the reports of the examining divisions and records and routes applications. Other divisions, all coordinate with the above, are the Federal Projects Division which examines and considers all projects sponsored by Federal Departments or Agencies; the Housing Division, with complete supervision of all applications for all low-cost housing loans; the Division of Transportation Loans which receives and examines all applications for railroad loans whether for equipment, rails, or maintenance; the Inspection Division, whose task it is to supervise throughout construction of all non-Federal projects; and the Economics and Statistics Division which compiles the statistical data bearing on the Administration's work with particular reference to immediate economic trends. The Technical Board of Review considers projects against which an adverse report or protest has been lodged. Its functions relate in the main to non-Federal projects.

The above constitutes the outline of the organization in Washington; the detailed function of each division will be considered below.

FIELD ORGANIZATION

In the field the organization consists first of 10 regional advisers, each of which is assigned to regions of from 3 to 7 States. The task of the regional advisers is to assist the National Planning Board in the formulation of a plan in each region, to stimulate public interest in regional planning, and to advise and consult with all Public Works Administration officials within the region.

In all States there is a State Advisory Board to which all projects except housing, transportation loans, and Federal projects must be submitted in the first instance. The boards are composed of three members in each State, except in Louisiana and Texas, where there are four members. The boards pass upon the projects from the standpoint of local coordinated planning and social and economic desirability. They submit all projects referred to them by applicants to the central office together with their recommendations thereon.

Acting as executive officer for the State Advisory Board is the State engineer (P.W.A.). He examines also the applications from a technical engineering standpoint and submits his recommendation to Washington as to every project.

There are 45 State engineers throughout the country. One engineer serves New Hampshire and Vermont and one serves Connecticut and Rhode Island. The State engineer's office in Maine was discontinued on November 30 due to the lack of applications from that State.

There are also representatives of the Public Works Administration in Hawaii, Puerto Rico, Alaska, and the Virgin Islands. There is no representative in the Canal Zone and the Act does not extend to the Philippine Islands, Guam, or American Samoa. Applications from the District of Columbia are received directly in the Washington office.

On February 10 the State engineers were directed not to receive any more applications for projects and to complete the work of examining the applications on hand by February 28, forwarding to Washington all those on which examination had not been completed. This action was taken because the number of pending applications for projects far exceeded any reasonable appropriation that might be expected from Congress. For the same reason, regional and State advisers were notified on February 17 that their services would be discontinued at the close of business on February 28, 1934. All records will be turned over to the State engineers.

Part III. POLICIES OF THE PUBLIC WORKS ADMINISTRATION

The fundamental purpose of the Public Works Administration is to relieve unemployment and to increase purchasing power through the construction of useful public works, thereby increasing the consumption of goods and also providing employment in the capital goods industries. All public-works projects, therefore, have had certain tests applied to them:

(1) Are the projects socially desirable and do they contribute something of value to the community?

(2) Will additional outlay by the Federal Government for maintenance and operation be required after the project has been completed?

(3) Can the project be commenced at once and completed quickly?

(4) Is the project located in or near a center of unemployment, which would entitle it to special consideration?

(5) Is the project integrated with other projects in a significant plan, which would give it a preferred status?

The following policies were adopted by the Special Board for Public Works in the interest of labor:

(1) Opportunity for employment should be equally distributed among qualified workers who are unemployed, as it is not intended that the public-works program should merely provide a change from one job to another.

(2) Opportunities for employment should be distributed geographically as widely and as equitably as practicable.

(3) Workers who are qualified should be entitled to whatever legal preference they may have, as for instance ex-service men with dependents, citizens of the area or State within which the work is to be done, etc.

(4) Excessive migration of labor in quest of work should be avoided.

(5) Local labor should, so far as possible, be selected from lists of qualified workers submitted by local employment agencies designated by the United States Employment Service.

The act provides that so far as practicable and feasible, no individual directly employed on any public work covered by the act should be permitted to work more than 30 hours in any 1 week, and that all employees should be paid just and reasonable wages sufficient to provide for the hours of labor as limited, a standard of living in decency and comfort.

APPENDIX A—STATISTICAL TABLES

Table 1.—This table shows the disposition of the $3,300,000,000 appropriated under the National Recovery Act to Government agencies, State and local governments, and all others to whom allotments were made. Of this amount $1,738,000,000 was allotted by legislative enactment or Executive order. This includes $400,000,000 allotted to the Department of Agriculture, Bureau of Public Roads, for highway work, and $238,000,000 to the Navy Department for building naval vessels which, however, appear in the table under the classification "Federal projects", because this money is to be spent by established Government agencies on structural projects. Including these allotments Federal projects account for $1,369,085,345. Non-Federal projects make up the balance of the allotments amounting to $827,567,398, leaving unallotted as of January 10, 1934, $3,001,006.

The tables which follow table 1 relate to the Federal and non-Federal projects as they are classified in table 1, and do not include amounts therein classified as executive and legislative allotments.

TABLE 1.—*General tabulation of allotments under National Industrial Recovery Act*

Total amount of appropriation	**$3,300,000,000**
Executive and legislative allotments:	
Farm Credit Administration:	
Agriculture marketing revolving fund	$40,000,000
Do	10,000,000
Do	10,000,000
Commodity Credit Corporation	3,000,000
Agriculture Adjustment Administration	37,000,000
Tennessee Valley Authority	50,000,000
Emergency Conservation Corps:	
Purchase of land	20,000,000
Current expenses	301,037,315
Great Smoky Mountain Park	1,550,000
National Recovery Administration:	
Administrative expense	4,250,000
National Labor Board (Special)	500,000
Conciliation Service	15,000
Administration of Petroleum Industry	159,000
Civil Works Administration	400,000,000
Federal Emergency Relief Administration:	
Unexpended balances of special account other than labor of relief program	1,465,000
Conciliation Service	5,000
Barter movement	35,000
Subsistence homesteads	25,000,000
Federal Emergency Administration of Public Works:	
Administrative expense	6,812,205
Administrative reserve	25,000,000
Special reserve	35,000,000
National Planning Board	35,000
National Planning Board (earmarked)	250,000
Public Works Emergency Housing Corporation	100,001,000

Food and Drug Administration	70,000	
Forest Service	40,967,745	
Bureau of Plant Industry	4,772,557	
Bureau of Plant Quarantine	2,093,670	
Bureau of Public Roads (including legislative allotments)	405,015,000	
Weather Bureau	183,840	
Commerce:		
Aeronautics Branch	2,558,803	
Bureau of Fisheries	558,500	
Bureau of Lighthouses	5,528,334	
Bureau of Mines	272,800	
Bureau of Navigation and Steamboat Inspection	33,043	
Bureau of Standards	100,000	
Labor:		
Immigration and Naturalization Service	1,422,980	
United States Employment Service	500,000	
Bureau of Labor Statistics	10,000	
United States Conciliation Service	10,000	
Independent offices:		
Architect of the Capitol	2,800,000	
Federal Power Commission	400,000	
National Commission for Aeronautics	247,944	
Panama Canal	1,000,000	
Veterans' Administration	1,916,650	
Territory of Alaska	175,500	
District of Columbia	1,759,500	
		$1,369,085,345
Non-Federal projects:		
State and municipalities	450,743,807	
Other public bodies	105,894,833	
Housing	48,771,958	
Private projects	13,618,000	
Relief highway projects	8,931,000	
Railroads	199,607,800	
		827,567,398
Total allotted		3,296,988,994
Balance to be allotted		3,011,006

Table 2.—Allotments to non-Federal projects were $827,567,398, but expenditures on these projects will be in the neighborhood of $1,000,000,000. The difference between allotments and the total amount that will be spent on non-Federal projects is accounted for by additional money that will be spent by recipients of grants who did not also obtain loans from the Public Works Administration. Under the law, the grant may not exceed 30 percent of the cost of labor and materials, so that the recipients of grants amounting to $39,603,403 must raise additional funds amounting to about $178,600,000.

TABLE 2.—*Financing of public works projects non-Federal*

	Loans	Grants	Spent by applicant	Total cost
Loans without grants, private enterprise	$248,379,758			$248,379,758
Loans with grants	433,198,382	$106,385,855		539,584,237
Without loans		39,603,403	$178,696,896	218,300,299
Total	681,578,140	145,989,258	178,696,896	1,006,264,294

Table 3.—Through December 31, 1933, the Public Works Administration had received 8,729 applications for public works allotments from State and local governments and from private corporations. The total amount of money represented by these applications was about $4,790,000,000. Out of the total amount applied for, the Public Works Administration approved 1,889 projects, amounting to $827,567,398. As of the end of the year, there were 6,457 applications pending, amounting to over $3,000,000,000.

It should be noted that this balance is not the difference between total applications filed and applications approved. This is because an approved application is not necessarily for the same amount as the amount requested.

TABLE 3.—*Applications submitted, and projects approved, through Dec. 31, and applications pending as of Dec. 31, 1933*

	Number	Amount
Applications filed through Dec. 31:		
a. Filed with State engineers	8,320	$3,750,754,000
b. Filed with Housing Division	330	687,096,336
c. Railway applications	79	351,951,827
Total	8,729	4,789,802,163
Applications approved	1,889	827,567,398
Applications rejected, withdrawn, or rescinded as of Dec. 31	379	446,882,384
Applications pending as of Dec. 31:		
a. Pending with State engineers	4,158	1,542,117,126
b. Pending in Washington:		
1. Forwarded by State engineers	2,078	901,182,670
2. Pending with Housing Division	160	414,486,166
3. Railroad applications	61	152,343,152
Total in Washington	2,299	1,468,011,988
Total applications pending as of Dec. 31	6,457	3,010,129,114

Table 4.—This table, which classifies allotments by type of project, shows that the bulk of the funds have gone into long-term capital goods. Streets and highways, utilities, buildings, engineering projects, aviation aids, excluding purchase of aircraft, account for 75 percent of the total allotments. Vessels, which are similar to these projects from the point of view of durability, account for 11.97 percent. The railroad allotments, which account for 9.09 percent of the total, will be used primarily for the purchase of rails and for rolling stock. This is considered as equipment primarily and therefore somewhat different from heavy capital construction, and if aircraft and ordnance and equipment are added to it, then allotments for purchase of machinery and equipment account for 10.62 percent of the total. Nonstructural projects, such as plant pest and disease control, surveying and mapping, and land purchase, amount to only 1.15 percent of the total.

TABLE 4.—*Allotments by types of projects*

Types of projects	Total	Federal	Non-Federal
Total	$2,196,652,743	$1,369,085,345	$827,567,398
1. Streets and highways	505,936,784	465,488,849	40,447,935
2. Utilities (excluding power)	215,868,312	15,101,080	200,767,232
a. Waterworks	66,463,972		66,463,972
b. Sewers	134,303,260		134,303,260
c. Other utilities	15,101,080	15,101,080	
3. Buildings	329,213,366	164,290,205	164,923,161
4. Engineering projects	587,206,092	380,591,947	206,614,145
a. Bridges and structures	163,385,421		163,385,421
b. Reclamation, flood control, and power	238,870,075	201,173,351	37,696,724
c. Water and navigation	184,950,596	179,418,596	5,532,000
5. Vessels	262,946,474	262,946,474	
6. Aircraft and aviation	26,360,807	25,875,707	485,100
a. Aircraft	15,374,825	15,374,825	
b. Hangars	5,914,447	5,914,447	
c. Landing fields	3,195,888	2,710,788	485,100
d. Other aids	1,875,647	1,875,647	
7. Railroads	199,607,800		199,607,800
8. Miscellaneous	69,513,108	54,791,083	14,722,025
a. Ordnance and equipment	18,277,286	18,277,286	
b. Nonstructural:			
1. Land purchase	616,088	616,088	
2. Survey and mapping	3,354,258	3,354,258	
3. Plant, pest, and disease control	21,207,427	21,207,427	
c. All other	26,058,049	11,336,024	14,722,025

Table 5.—This table shows the distribution of allotments by size In the case of Federal projects the size of the project is measured by the allotment, but in the case of non-Federal projects the size is measured by the allotment plus money to be spent by the applicant under the grant agreement. Under the law, a grant may not exceed 30 percent of the cost of labor and materials, and on this basis the total amount to be spent on each non-Federal project where a grant was obtained has been estimated, and it is these amounts which have been used in showing non-Federal projects classified by size.

Eighty-two and two tenths percent of all Federal and non-Federal projects are less than $100,000 in size, but this percent of the projects

by number accounts for only 13.74 percent of the total funds to be spent. Over 96 percent of the projects are less than $500,000 in size and about 31 percent of the funds are in projects of less than this amount. About 98 percent of all projects are less than $1,000,000 in size and 37 percent of the total funds to be spent are in projects of less than this amount.

TABLE 5.—*Classification of projects by size*

[Federal amounts are allotments only, non-Federal amounts are allotments plus money to be spent by applicant under grant agreement]

Size of project	Federal				Non-Federal			
	Projects		Amount		Projects		Amount

Total	15,003	100.00	2,375,350,309	100.00

Table 6.—This table shows the progress month by month in making allotments, contracts awarded, and day labor started on work that is to be done on force account, and the number of men employed on Federal and non-Federal projects. By December 31, 1933, contracts to the value of over $600,000,000 had been awarded, and in addition work had been started on force account on projects valued at about $182,000,000. Total contracts awarded and work started on force account amounted to over $782,000,000.

The figures in this table do not include sums spent or men employed on Civil Works Administration projects.

TABLE 6.—*Total allotments, contracts awarded, work started on force account, and number of workmen employed for all Federal and non-Federal projects*

Month	Allotments	Value of contracts awarded and value of projects on which day labor has started on force account			Number of workmen employed
		Contracts awarded	Value of projects work started on force account	Total contracts and work started on force account	
June	$638,000,000	$901,043		$901,043	
July	51,435,068	15,785,934		15,785,934	[1] 329

[1] Number employed at end of month.
[2] Figures from U.S. Bureau of Labor Statistics, for month ending on the 15th.

Table 7.—These figures show the number of men directly employed on projects financed by Public Works Administration allotments.

In addition to those directly employed on the job, there are additional men put to work indirectly. The most obvious way in which indirect employment is created by Public Works expenditures is through the purchase of materials and equipment that go into public works projects, such as cement, lumber, brick, structural steel, elevators, and heating equipment for buildings, etc.

But indirect employment is further created as a result of wage payments to men at work on the job and to those at work in the production of materials; for the funds so paid out as wages will be spent in the main for consumers' goods, such as clothing, furniture, automobiles, etc., which in turn creates further employment in their increased production and so on to another but diminishing stimulus to indirect employment.

There is some multiple then to be applied to the number of men directly employed on public works projects to arrive at total employment, both direct and indirect. It has been estimated that two persons will be employed indirectly for each person employed directly. This figure at least appears conservative. It may be higher than this. It is not likely that it is much lower.

This multiple, however, or any multiple used to arrive at total amount of employment created by Public Works expenditures, is applicable only over broad intervals of time. It cannot be used correctly to show total indirect employment created at any particular time.

TABLE 7.—*Men employed by national recovery appropriation, by agencies*

Agencies	September	October	November	December
Total	397,625	451,360	2,027,470	4,428,542

APPENDIX B—LIST OF APPROVED FEDERAL PROJECTS

(As of January 10, 1934)

STATE DEPARTMENT

INTERNATIONAL BOUNDARY COMMISSION

ALASKA AND CANADA

State	City or locality	Character of work	Total estimated cost to complete	Federal project no.
Montana	Along international boundary, Browning to western boundary of State.	Boundary maintenance work required by treaty obligation over and above that provided for in current appropriation.	[1] $9,750.00	1
Maine	Houlton to Van Buren	do	[2] 3,250.00	1
Washington	On Boundary Bay near Blaine.	Range beacons for marking the course of the international boundary line across Boundary Bay.	13,500.00	2
Total, International Boundary Commission, Alaska and Canada.			26,500.00	

[1] 75 percent of $13,000. [2] 25 percent of $13,000.

UNITED STATES AND MEXICO

California and New Mexico.		Resetting and repainting boundary monuments, San Diego, Calif., to El Paso, Tex.	$1,500.00	1
Texas	Lower Rio Grande Valley.	International flood control works including floodway excavation, levee embankment, and structures.	1,500,000.00	2
Arizona	Nogales	For the construction of an international flood waterway at Nogales, Ariz., and Nogales, Sonora, and improvement of existing channels to carry off flood waters in that region. The estimated cost of the work to be performed in the United States amounts to $433,000.	433,000.00	3
Texas		For the rectification of the Rio Grande in the El Paso-Juarez Valley, the construction of a dam and reservoir at Caballo, N.Mex., and the acquisition and disposition of any real or personal property in connection with the construction of the project, in accordance with the terms of the convention of Feb. 1, 1933, concluded between the United States and Mexico, and proclaimed by the President of the United States on Nov. 13, 1933. The estimated total cost of the work to be performed in the United States amounts to $5,256,634.	2,800,000.00	4
Total, International Boundary Commission, United States and Mexico.			4,734,500.00	

TREASURY DEPARTMENT

COAST GUARD

State	City or locality	Character of work	Total estimated cost to complete	Federal project no.
Washington	Seattle	Main turbine repairs, 1 cutter	$20,000.00	1
Massachusetts	Boston	do	20,000.00	2
Do	do	New generators, motorize auxiliaries, modernize and alter quarters and magazines for 4 cutters Tampa class.	90,000.00	3
New York	New York	do	90,000.00	4
Virginia	Norfolk	do	90,000.00	5
Washington	Seattle	do	90,000.00	6
Do	do	Replace diesel auxiliaries on 5 cutters	50,000.00	7
Do	do	Improve magazines on 5 cutters	75,000.00	8
California	San Francisco	Alter forced draft blowers on 5 cutters	30,000.00	9
New York	New York	Rearrange quarters on 5 cutters	25,000.00	10
Virginia	Norfolk	Improve communication on 9 cutters	22,000.00	11
Do		Miscellaneous repairs and alterations on 10 cutters.	50,000.00	12
Ohio	Cleveland	New engine for six 125-foot patrol boats (300 h.p.).	200,000.00	13
Maryland		Completion of major repairs to *Ossipen*	50,000.00	14
Connecticut	Fort Trumbull	Recondition electric lighting system in buildings and reservations.	5,000.00	15
New York	On coast	The addition of long-haul telephone circuit to existing lines. Part of an allotment of $32,000.	6,000.00	16
New Jersey	do	do	6,000.00	16
Delaware	do	do	5,000.00	16
Maryland	do	do	5,000.00	16
Virginia	do	do	5,000.00	16
North Carolina	do	do	5,000.00	16
California	do	Rebuild telephone line Point Sur	9,000.00	17
Delaware	do	Rebuild telephone line Cape Nealopan-Cape Charles.	7,250.00	18
Maryland	do	do	7,250.00	18
Oregon	do	Rebuild telephone line Grays Harbor River.	10,000.00	19
Rhode Island	do	Rebuild telephone line Fort Judith to Watch Hill.	4,200.00	20
Do	do	Renew submarine cable New London, Fishers Island, Watch Hill.	8,000.00	21
Massachusetts	do	do	9,000.00	21
New York	do	do	9,000.00	21
Connecticut	do	do	9,000.00	21
Various	Atlantic Gulf and Pacific coast.	Renewing submarine cable throughout entire system where 20 years life of cable has expired.	105,000.00	22
Do		Vessels and boats, 3 vessels, cruising cutters, about 300 feet long.	4,500,000.00	23
Do		4-harbor craft	948,337.00	25
California	Government Island Alameda.	Construction of an interlocking steel sheet pile bulkhead along the established harbor line.	293,490.00	26
Connecticut	New London	Installation of piping in steam laboratory building, Coast Guard Academy.	20,000.00	27
Do	do	Installation of boiler uptakes, stacks, forced draft fan, and ducks, in steam laboratory building, Coast Guard Academy.	15,000.00	28
Texas	Along coast	Construct telephone line San Luis to Velasco, Tex.	6,000.00	29
Various		Storm damage to life-saving stations in the Fourth (Long Island, N.Y.), Fifth (New Jersey), Sixth (Delaware and Virginia), Seventh (Virginia, North Carolina, and South Carolina), Coast Guard districts; and fire damage at the Lewes station, Lewes, Del., and Old Chicago station, Chicago, Ill.	282,075.00	30
Do		Storm damage to telephone and cable systems along the Atlantic coast, between Cape Henlopen, Del., and Morehead City, N.C.	35,000.00	31
Do		Lifeboats and surfboats for cutters and stations.	500,000.00	32
Maryland	Curtis Bay	Radio-supply building	45,000.00	33

GEOLOGICAL SURVEY—Continued

State	City or locality	Character of work	Total estimated cost to complete	Federal project no.
Various		Underground water surveys: Final drafting and typing of reports.	$8,000.00	126
Do		Underground water surveys: Administration.	2,000.00	127
Do		Underground water surveys: Contingent (to be assigned later as the work develops).	10,000.00	128
Wyoming	Casper (Midwest camp).	Cement apron in front of garage, approximately 1,300 square feet estimated cost, 20 cents per square foot.	240.00	129
Do	do	Roof over cement apron	300.00	130
Do	do	6-car extension to present garage with concrete floor.	1,000.00	131
Do	do	Purchase and installation of 9 new garage doors, 3-section type, for present garage and shop.	1,200.00	132
Do	do	Installation of 9 ceiling light fixtures in garage and shop.	13.50	133
Do	do	Weather stripping all doors and windows to all cottages, office, and laboratory buildings.	538.00	134
Do	do	Rewiring all cottages, apartment building, and laboratory for baseboard electrical outlets.	90.00	135
Do	do	Construction of additional bedrooms at 2 cottages at $250 each.	500.00	136
Do	do	Construction of fireproof building for storage of Government records.	1,200.00	137
Do	do	Rebuilding 2 front porches of apartment building with post support and shed-type roof.	125.00	138
Do	do	Replacing part of fence around Survey camp constructed in 1921. Approximately 1,500 linear feet of no. 6 gage, 2-inch-mesh chain-link fence wire, 60 inches high.	427.50	139
Do	do	100 cedar posts, 8 feet long at $0.70	70.00	140
Do	do	Labor for digging post holes and constructing fence (twenty 6-hour days at $0.50 an hour).	60.00	141
Do	do	Constructing a snow fence on north side of camp.	250.00	142
Do	do	Installation of window wells and cementing floors of 6 cellars at $25 each.	150.00	143
Do	do	Excavating and constructing concrete cellars under apartment building and cottage no. 6, size of cellars 10 by 12 by 7 feet each, 8-inch concrete walls with window wells for ventilating and trap-door entrance to cellar in kitchen.	1,050.00	144
Do	do	Miscellaneous minor repairs to buildings and grounds, such as repairs and replacement of cement sidewalks, roof repairs, plumbing, construction of concrete drainage ditch, repairs to cupboards, screens, gravelling and oiling roads, etc.	375.00	145
California	Taft (Taft Camp)	Painting 1 coat outside of all camp buildings.	1,500.00	146
Do	do	Installation of showers in 8 cottages; approximate cost $20 per building. It is estimated that these showers will in time pay for themselves through the saving of water.	160.00	147
Do	do	Miscellaneous jobs around the buildings which will require the services of a skilled mechanic (carpenter-painter), consisting of repairs to screen doors, cupboards, tool locker, rehanging garage doors, etc.	250.00	148
Do	do	Labor and material to grade and oil roads in camp.	100.00	149
Do	do	Construction of open-type 3-stall garage	365.00	150
Do	Mineral	For the construction of a cellar for seismographs and other instruments, and to construct over the cellar a new office building, and to remove old building to the rear of the new site for use as a garage and shop.	1,200.00	151

DEPARTMENT OF THE INTERIOR—Continued

GEOLOGICAL SURVEY—Continued

State	City or locality	Character of work	Total estimated cost to complete	Federal project no.
Puerto Rico		To commence topographic survey and mapping. This work will give employment to engineers from the United States.	$25,000.00	152
California	San Francisco	Salary and travel expenses of a skilled geologic draftsman for about 1½ years to work in the San Francisco office of the California division of mines on a new geologic map of the State of California which has been in preparation slowly for 2 or 3 years as a cooperative project between the State Division of Mines and the U.S. Geological Survey.	5,000.00	153
Various		An additional allocation for construction, repairs, and replacement of equipment and maintenance of river measurement stations on Colorado River.	75,000.00	154
Do		An additional allocation for construction, repairs, and replacement of equipment and maintenance of new base stations on tributary streams of the Mississippi River.	25,000.00	155
Do		An additional allocation for construction, repairs, and replacement of equipment and maintenance of 805 existing stations in Mississippi Basin.	180,000.00	156
Do		Mineral resources survey	3,000.00	157
Do		Mineralized areas in North Carolina, South Carolina, Georgia, Alabama, etc. Study of gold-bearing rocks.	9,600.00	158
North Dakota	Minot district	Mineral land classification area from South Dakota line near Bowman to railroad near Minot, mineral land classification.	8,000.00	159
Oklahoma	Lehigh district	Mineral resource survey	6,400.00	160
Alabama		Mineral resource surveys and land classifications.	22,000.00	161

Altavista, Va.	84,000

APPENDIX D. NON-FEDERAL PROJECTS PENDING IN WASHINGTON

This list includes all non-Federal projects pending in Washington on which final action has not been taken. It does not include projects which have been approved, finally rejected, withdrawn, or transferred to the Civil Works Administration. The list is made up as of January 10, 1934, except that projects approved, withdrawn, or finally rejected through January 24 have not been included.

APPENDIX E.—NON-FEDERAL PROJECTS PENDING IN STATE ENGINEERS' OFFICES

This list is compiled from the weekly reports sent to Washington by the several State engineers. In general the report is complete through the last week in December 1933.

Since this table went to press, a considerable proportion of the projects listed have been forwarded to Washington.

The figures are given as they appear on the State engineers' lists, which occasionally fail to give the amount involved in a given project. So too, they very frequently fail to make any mention of the 30 percent grant. In general, however, every public body applicant requests a grant, and not infrequently private corporations, which under the law are ineligible for grants, request them also.

ALABAMA

Location	Type of project	Loan requested	Grant requested
Andalusia	Street paving	$285,000.00	
Andalusia, Covington County.	Highway construction and improvement	304,900.00

APPENDIX F—RAILROAD, HOUSING, AND FEDERAL PROJECTS PENDING IN WASHINGTON

No projects of this character are pending in the State Engineers' offices These projects do not pass through the State Advisory Board.

1. APPLICATIONS PENDING BEFORE THE DIVISION OF TRANSPORTATION LOANS AS OF FEBRUARY 15, 1934

This list includes applications for loans for rails and fastenings. Such requests will be filled, insofar as possible, out of the $41,000,000 blanket allotment already made. Part of this allotment has already been used for rail loans.

Name of applicant	Purpose	Loan requested
Alabama, Tennessee and Northern R.R.	Repairs and equipment	$200,000
Arkansas Valley Interurban Ry.	Rail	100,000
Bartlett Western Ry.	Maintenance	5,000
Bellevue and Cascade R.R.	Equipment	40,000
California and Oregon Coast	Extension	5,718,565
Carolina Southern	Ties and maintenance	25,000
Chicago Great Western R.R.	Rail and fastenings	1,117,500
Chicago, Milwaukee, St. Paul and Pacific R.R.	Rail, repairs and equipment	8,607,383
Fonda, Johnstown and Gloversville R.R.	Equipment	200,000
Fort Smith and Western	Repairs and maintenance	75,000
Great Northern Ry.	Rail and fastenings	1,500,000
Gulf, Mobile and Northern	Equipment	1,000,000
Hoosac Tunnel and Wilmington R.R.	Miscellaneous items	5,100
Huntington and Broad Top Mountain R.R.	Rail and fastenings	40,000
Interior Motor Ship Lines, Inc.	Floating equipment	100,000
International and Great Northern R.R.	Equipment	2,000,000
Louisiana and Arkansas Ry.	Repairs, rail, and equipment	500,000
Maine Central	Rail and fastenings	500,000
Minneapolis, St. Paul and Sault Ste. Marie	Equipment	500,000
Missouri and North Arkansas R.R.	Rail, repairs, and maintenance	250,000
Missouri Southern R.R.	Equipment	55,000
New York Central	Rail and fastenings	2,500,000
Nezperce and Idaho R.R.	Ties	6,400
Pittsburgh, Shawmut and Northern R.R.	Equipment	
Pittsburgh and Susquehanna R.R.	Repairs and maintenance	20,000
Pittsburgh and West Virginia	Equipment	331,000
Port Angeles Western R.R.	Extension	200,000
Quebec Extension Ry.	do	4,800,000
Savannah and Atlanta Ry.	Equipment	500,000

3. STATEMENT WITH RESPECT TO PENDING FEDERAL PROJECTS

Shortly after the organization of the Public Works Administration, the several Federal departments and agencies were requested to furnish statements showing the projects which they wished to have included in the comprehensive program of Public Works. Since that time the departments and agencies have at intervals filed additional requests. Some of the requests were approved and included in the comprehensive program; others were not acted upon.

At a meeting of the Special Board for Public Works held on February 14, 1934, all pending Federal projects were ordered returned, and the departments and agencies were requested to prepare and submit to the Administrator, not later than March 10, 1934, new lists of recommended projects arranged by priorities. In consequence of this order, there were no Federal projects pending with the Public Works Administration on February 15.

APPENDIX G—ADDENDA TO BRING LISTS AND TABLES TO FEBRUARY 15, 1934

TABLE 1.—*Status of national recovery appropriation as of Feb. 15, 1934*

Executive and legislative allotments	$1, 100, 983, 131
Federal projects	1, 378, 846, 755
Non-Federal projects	818, 377, 212
Net balance to be allotted	1, 792, 902
Total	3, 300, 000, 000

TABLE 2.—*Non-Federal applications pending and approved as of Feb. 15, 1934*

	Number	Amount
Non-Federal applications pending with State engineers	2, 567	$1, 326, 140, 139
Non-Federal applications pending in Washington, including housing and railroad projects	3, 539	2, 096, 884, 635
Total non-Federal applications pending	6, 106	3, 423, 024, 774
Non-Federal applications approved	2, 065	818, 377, 212

TABLE 3A.—*Executive and legislative allotments made from Jan. 10 through Feb. 15, 1934*

National Recovery Administration:

TABLE 10.—*Men employed by national recovery appropriation, by agencies, for Jan. 1934*

Agencies	Men employed	Agencies	Men employed
Total	4,613,925	Public Works Administration	2,729
		Civil Works Administration	4,000,000
Tennessee Valley Authority	3,880	Federal projects	255,000
Conservation fund	332,980	Non-Federal projects	16,000
National Recovery Administration	2,430	Special allotments	906

TABLE 11.—*Additional projects pending in the State engineers' offices*

This table shows projects received in the State engineers' offices in addition to those already noted in appendix E. They represent all projects which had been reported to the Washington office on February 15, but do not in all cases represent every project pending in the State engineers' offices on that date.

No attempt has been made to bring appendices D and E, or this table, up to date by showing the transfers from the State engineers' offices to Washington. Since these appendices were compiled, a considerable proportion of the projects listed therein have been forwarded to Washington. Furthermore, while this report was in the press, an order was issued disbanding the State advisory boards, and ordering the State engineers to forward to Washington all projects which had been received by them.

ALABAMA

Location	Type of project	Loan requested	Grant requested
Andalusia	Gas plant	$83,316.00

APPENDIX H—THE NATIONAL INDUSTRIAL RECOVERY ACT

[PUBLIC—No. 67—73D CONGRESS]

[H.R. 5755]

An Act to encourage national industrial recovery, to foster fair competition, and to provide for the construction of certain useful public works, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I—INDUSTRIAL RECOVERY

DECLARATION OF POLICY

SECTION 1. A national emergency productive of wide-spread unemployment and disorganization of industry, which burdens interstate and foreign commerce, affects the public welfare, and undermines the standards of living of the American people, is hereby declared to exist. It is hereby declared to be the policy of Congress to remove obstructions to the free flow of interstate and foreign commerce which tend to diminish the amount thereof; and to provide for the general welfare by promoting the organization of industry for the purpose of cooperative action among trade groups, to induce and maintain united action of labor and management under adequate governmental sanctions and supervision, to eliminate unfair competitive practices, to promote the fullest possible utilization of the present productive capacity of industries, to avoid undue restriction of production (except as may be temporarily required), to increase the consumption of industrial and agricultural products by increasing purchasing power, to reduce and relieve unemployment, to improve standards of labor, and otherwise to rehabilitate industry and to conserve natural resources.

ADMINISTRATIVE AGENCIES

SEC. 2. (*a*) To effectuate the policy of this title, the President is hereby authorized to establish such agencies, to accept and utilize such voluntary and uncompensated services, to appoint, without regard to the provisions of the civil service laws, such officers and employees, and to utilize such Federal officers and employees, and, with the consent of the State, such State and local officers and employees, as he may find necessary, to prescribe their authorities, duties, responsibilities, and tenure, and, without regard to the Classification Act of 1923, as amended, to fix the compensation of any officers and employees so appointed.

(*b*) The President may delegate any of his functions and powers under this title to such officers, agents, and employees as he may

designate or appoint, and may establish an industrial planning and research agency to aid in carrying out his functions under this title.

(*c*) This title shall cease to be in effect and any agencies established hereunder shall cease to exist at the expiration of 2 years after the date of enactment of this act, or sooner if the President shall by proclamation or the Congress shall by joint resolution declare that the emergency recognized by section 1 has ended.

CODES OF FAIR COMPETITION

SEC. 3. (*a*) Upon the application to the President by one or more trade or industrial associations or groups, the President may approve a code or codes of fair competition for the trade or industry or subdivision thereof, represented by the applicant or applicants, if the President finds (1) that such associations or groups impose no inequitable restrictions on admission to membership therein and are truly representative of such trades or industries or subdivisions thereof, and (2) that such code or codes are not designed to promote monopolies or to eliminate or oppress small enterprises and will not operate to discriminate against them, and will tend to effectuate the policy of this title: *Provided*, That such code or codes shall not permit monopolies or monopolistic practices: *Provided further*, That where such code or codes affect the services and welfare of persons engaged in other steps of the economic process, nothing in this section shall deprive such persons of the right to be heard prior to approval by the President of such code or codes. The President may, as a condition of his approval of any such code, impose such conditions (including requirements for the making of reports and the keeping of accounts) for the protection of consumers, competitors, employees, and others, and in furtherance of the public interest, and may provide such exceptions to and exemptions from the provisions of such code, as the President in his discretion deems necessary to effectuate the policy herein declared.

(*b*) After the President shall have approved any such code, the provisions of such code shall be the standards of fair competition for such trade or industry or subdivision thereof. Any violation of such standards in any transaction in or affecting interstate or foreign commerce shall be deemed an unfair method of competition in commerce within the meaning of the Federal Trade Commission Act, as amended; but nothing in this title shall be construed to impair the powers of the Federal Trade Commission under such act, as amended.

(*c*) The several district courts of the United States are hereby invested with jurisdiction to prevent and restrain violations of any code of fair competition approved under this title; and it shall be the duty of the several district attorneys of the United States, in their respective districts, under the direction of the Attorney General, to institute proceedings in equity to prevent and restrain such violations.

(*d*) Upon his own motion, or if complaint is made to the President that abuses inimical to the public interest and contrary to the policy herein declared are prevalent in any trade or industry or subdivision thereof, and if no code of fair competition therefor has theretofore been approved by the President, the President, after such public notice and hearing as he shall specify, may prescribe and approve

a code of fair competition for such trade or industry or subdivision thereof, which shall have the same effect as a code of fair competition approved by the President under subsection (*a*) of this section.

(*e*) On his own motion, or if any labor organization, or any trade or industrial organization, association, or group, which has complied with the provisions of this title, shall make complaint to the President that any article or articles are being imported into the United States in substantial quantities or increasing ratio to domestic production of any competitive article or articles and on such terms or under such conditions as to render ineffective or seriously to endanger the maintenance of any code or agreement under this title, the President may cause an immediate investigation to be made by the United States Tariff Commission, which shall give precedence to investigations under this subsection, and if, after such investigation and such public notice and hearing as he shall specify, the President shall find the existence of such facts, he shall, in order to effectuate the policy of this title, direct that the article or articles concerned shall be permitted entry into the United States only upon such terms and conditions and subject to the payment of such fees and to such limitations in the total quantity which may be imported (in the course of any specified period or periods) as he shall find it necessary to prescribe in order that the entry thereof shall not render or tend to render ineffective any code or agreement made under this title. In order to enforce any limitations imposed on the total quantity of imports, in any specified period or periods, of any article or articles under this subsection, the President may forbid the importation of such article or articles unless the importer shall have first obtained from the Secretary of the Treasury a license pursuant to such regulations as the President may prescribe. Upon information of any action by the President under this subsection the Secretary of the Treasury shall, through the proper officers, permit entry of the article or articles specified only upon such terms and conditions and subject to such fees, to such limitations in the quantity which may be imported, and to such requirements of license, as the President shall have directed. The decision of the President as to facts shall be conclusive. Any condition or limitation of entry under this subsection shall continue in effect until the President shall find and inform the Secretary of the Treasury that the conditions which led to the imposition of such condition or limitation upon entry no longer exists.

(*f*) When a code of fair competition has been approved or prescribed by the President under this title, any violation of any provision thereof in any transaction in or affecting interstate or foreign commerce shall be a misdemeanor and upon conviction thereof an offender shall be find not more than $500 for each offense, and each day such violation continues shall be deemed a separate offense.

AGREEMENTS AND LICENSES

SEC. 4. (*a*) The President is authorized to enter into agreements with, and to approve voluntary agreements between and among, persons engaged in a trade or industry, labor organizations, and trade or industrial organizations, associations, or groups, relating to any trade or industry, if in his judgment such agreements will aid in

effectuating the policy of this title with respect to transactions in or affecting interstate or foreign commerce, and will be consistent with the requirements of clause (2) of subsection (*a*) of section 3 for a code of fair competition.

(*b*) Whenever the President shall find that destructive wage or price cutting or other activities contrary to the policy of this title are being practiced in any trade or industry or any subdivision thereof, and, after such public notice and hearing as he shall specify, shall find it essential to license business enterprises in order to make effective a code of fair competition or an agreement under this title or otherwise to effectuate the policy of this title, and shall publicly so announce, no person shall, after a date fixed in such announcement, engage in or carry on any business, in or affecting interstate or foreign commerce, specified in such announcement, unless he shall have first obtained a license issued pursuant to such regulations as the President shall prescribe. The President may suspend or revoke any such license, after due notice and opportunity for hearing, for violations of the terms or conditions thereof. Any order of the President suspending or revoking any such license shall be final if in accordance with law. Any person who, without such a license or in violation of any condition thereof, carries on any such business for which a license is so required, shall, upon conviction thereof, be fined not more than $500, or imprisoned not more than 6 months, or both, and each day such violation continues shall be deemed a separate offense. Notwithstanding the provisions of section 2 (*c*), this subsection shall cease to be in effect at the expiration of 1 year after the date of enactment of this act or sooner if the President shall by proclamation or the Congress shall by joint resolution declare that the emergency recognized by section 1 has ended.

SEC. 5. While this title is in effect (or in the case of a license, while section 4 (*a*) is in effect) and for 60 days thereafter, any code, agreement, or license approved, prescribed, or issued and in effect under this title, and any action complying with the provisions thereof taken during such period, shall be exempt from the provisions of the anti-trust laws of the United States.

Nothing in this act, and no regulation thereunder, shall prevent an individual from pursuing the vocation of manual labor and selling or trading the products thereof; nor shall anything in this act, or regulation thereunder, prevent anyone from marketing or trading the produce of his farm.

LIMITATIONS UPON APPLICATION OF TITLE

SEC. 6. (*a*) No trade or industrial association or group shall be eligible to receive the benefit of the provisions of this title until it files with the President a statement containing such information relating to the activities of the association or group as the President shall by regulation prescribe.

(*b*) The President is authorized to prescribe rules and regulations designed to insure that any organization availing itself of the benefits of this title shall be truly representative of the trade or industry or subdivision thereof represented by such organization. Any organization violating any such rule or regulation shall cease to be entitled to the benefits of this title.

(c) Upon the request of the President, the Federal Trade Commission shall make such investigations as may be necessary to enable the President to carry out the provisions of this title, and for such purposes the Commission shall have all the powers vested in it with respect of investigations under the Federal Trade Commission Act, as amended.

SEC. 7. (a) Every code of fair competition, agreement, and license approved, prescribed, or issued under this title shall contain the following conditions: (1) That employees shall have the right to organize and bargain collectively through representatives of their own choosing, and shall be free from the interference, restraint, or coercion of employers of labor, or their agents, in the designation of such representatives or in self-organization or in other concerted activities for the purpose of collective bargaining or other mutual aid or protection; (2) that no employee and no one seeking employment shall be required as a condition of employment to join any company union or to refrain from joining, organizing, or assisting a labor organization of his own choosing; and (3) that employers shall comply with the maximum hours of labor, minimum rates of pay, and other conditions of employment, approved or prescribed by the President.

(b) The President shall, so far as practicable, afford every opportunity to employers and employees in any trade or industry or subdivision thereof with respect to which the conditions referred to in clauses (1) and (2) of subsection (a) prevail, to establish by mutual agreement, the standards as to the maximum hours of labor, minimum rates of pay, and such other conditions of employment as may be necessary in such trade or industry or subdivision thereof to effectuate the policy of this title; and the standards established in such agreements, when approved by the President, shall have the same effect as a code of fair competition, approved by the President under subsection (a) of section 3.

(c) Where no such mutual agreement has been approved by the President he may investigate the labor practices, policies, wages, hours of labor, and conditions of employment in such trade or industry or subdivision thereof; and upon the basis of such investigations, and after such hearings as the President finds advisable, he is authorized to prescribe a limited code of fair competition fixing such maximum hours of labor, minimum rates of pay, and other conditions of employment in the trade or industry or subdivision thereof investigated as he finds to be necessary to effectuate the policy of this title, which shall have the same effect as a code of fair competition approved by the President under subsection (a) of section 3. The President may differentiate according to experience and skill of the employees affected and according to the locality of employment; but no attempt shall be made to introduce any classification according to the nature of the work involved which might tend to set a maximum as well as a minimum wage.

(d) As used in this title, the term "person" includes any individual, partnership, association, trust, or corporation; and the terms "interstate and foreign commerce" and "interstate or foreign commerce" include, except where otherwise indicated, trade or commerce among the several States and with foreign nations, or between the District of Columbia or any Territory of the United States and any State, Territory, or foreign nation, or between any insular possessions or other places under the jurisdiction of the United States, or between any such possession or place and any State or Territory of the United States or the District of Columbia or any foreign nation, or within the District of Columbia or any Territory or any insular possession or other place under the jurisdiction of the United States.

APPLICATION OF AGRICULTURAL ADJUSTMENT ACT

SEC. 8. (a) This title shall not be construed to repeal or modify any of the provisions of title I of the act entitled "An act to relieve the existing national economic emergency by increasing agricultural purchasing power, to raise revenue for extraordinary expenses incurred by reason of such emergency, to provide emergency relief with respect to agricultural indebtedness, to provide for the orderly liquidation of joint-stock land banks, and for other purposes", approved May 12, 1933; and such title I of said act approved May 12, 1933, may for all purposes be hereafter referred to as the "Agricultural Adjustment Act."

(b) The President may, in his discretion, in order to avoid conflicts in the administration of the Agricultural Adjustment Act and this title, delegate any of his functions and powers under this title with respect to trades, industries, or subdivisions thereof which are engaged in the handling of any agricultural commodity or product thereof, or of any competing commodity or product thereof, to the Secretary of Agriculture.

OIL REGULATION

SEC. 9. (a) The President is further authorized to initiate before the Interstate Commerce Commission proceedings necessary to prescribe regulations to control the operations of oil pipe lines and to fix reasonable, compensatory rates for the transportation of petroleum and its products by pipe lines, and the Interstate Commerce Commission shall grant preference to the hearings and determination of such cases.

(b) The President is authorized to institute proceedings to divorce from any holding company any pipe-line company controlled by such holding company which pipe-line company by unfair practices or by exorbitant rates in the transportation of petroleum or its products tends to create a monopoly.

(c) The President is authorized to prohibit the transportation in interstate and foreign commerce of petroleum and the products thereof produced or withdrawn from storage in excess of the amount permitted to be produced or withdrawn from storage by any State law or valid regulation or order prescribed thereunder, by any board, commission, officer, or other duly authorized agency of a State. Any violation of any order of the President issued under the provisions of this subsection shall be punishable by fine of not to exceed $1,000, or imprisonment for not to exceed 6 months, or both.

RULES AND REGULATIONS

SEC. 10. (a) The President is authorized to prescribe such rules and regulations as may be necessary to carry out the purposes of

this title, and fees for licenses and for filing codes of fair competition and agreements, and any violation of any such rule or regulation shall be punishable by fine of not to exceed $500, or imprisonment for not to exceed 6 months, or both.

(*b*) The President may from time to time cancel or modify any order, approval, license, rule, or regulation issued under this title; and each agreement, code of fair competition, or license approved, prescribed, or issued under this title shall contain an express provision to that effect.

TITLE II—PUBLIC WORKS AND CONSTRUCTION PROJECTS

FEDERAL EMERGENCY ADMINISTRATION OF PUBLIC WORKS

SECTION 201. (*a*) To effectuate the purposes of this title, the President is hereby authorized to create a Federal Emergency Administration of Public Works, all the powers of which shall be exercised by a Federal Emergency Administrator of Public Works (hereafter referred to as the "Administrator"), and to establish such agencies, to accept and utilize such voluntary and uncompensated services, to appoint, without regard to the civil service laws, such officers and employees, and to utilize such Federal officers and employees, and, with the consent of the State, such State and local officers and employees as he may find necessary, to prescribe their authorities, duties, responsibilities, and tenure, and, without regard to the Classification Act of 1923, as amended, to fix the compensation of any officers and employees so appointed. The President may delegate any of his functions and powers under this title to such officers, agents, and employees as he may designate or appoint.

(*b*) The Administrator may, without regard to the civil service laws or the Classification Act of 1923, as amended, appoint and fix the compensation of such experts and such other officers and employees as are necessary to carry out the provisions of this title; and may make such expenditures (including expenditures for personal services and rent at the seat of government and elsewhere, for law books and books of reference, and for paper, printing and binding) as are necessary to carry out the provisions of this title.

(*c*) All such compensation, expenses, and allowances shall be paid out of funds made available by this act.

(*d*) After the expiration of 2 years after the date of the enactment of this act, or sooner if the President shall by proclamation or the Congress shall by joint resolution declare that the emergency recognized by section 1 has ended, the President shall not make any further loans or grants or enter upon any new construction under this title, and any agencies established hereunder shall cease to exist and any of their remaining functions shall be transferred to such departments of the Government as the President shall designate: *Provided,* That he may issue funds to a borrower under this title prior to January 23, 1939, under the terms of any agreement, or any commitment to bid upon or purchase bonds, entered into with such borrower prior to the date of termination, under this section, of the power of the President to make loans.

SEC. 202. The Administrator, under the direction of the President, shall prepare a comprehensive program of public works, which shall include among other things the following: (*a*) Construction, repair, and improvement of public highways and park ways, public buildings, and any publicly owned instrumentalities and facilities; (*b*) conservation and development of natural resources, including control, utilization, and purification of waters, prevention of soil or coastal erosion, development of water power, transmission of electrical energy, and construction of river and harbor improvements and flood control and also the construction of any river or drainage improvement required to perform or satisfy any obligation incurred by the United States through a treaty with a foreign Government heretofore ratified and to restore or develop for the use of any State or its citizens water taken from or denied to them by performance on the part of the United States of treaty obligations heretofore assumed: *Provided,* That no river or harbor improvements shall be carried out unless they shall have heretofore or hereafter been adopted by the Congress or are recommended by the Chief of Engineers of the United States Army: (*c*) any projects of the character heretofore constructed or carried on either directly by public authority or with public aid to serve the interests of the general public; (*d*) construction, reconstruction, alteration, or repair under public regulation or control of low-cost housing and slum-clearance projects; (*e*) any project (other than those included in the foregoing classes) of any character heretofore eligible for loans under subsection (*a*) of section 201 of the Emergency Relief and Construction Act of 1932, as amended, and paragraph (3) of such subsection (*a*) shall for such purposes be held to include loans for the construction or completion of hospitals the operation of which is partly financed from public funds, and of reservoirs and pumping plants and for the construction of dry docks; and if in the opinion of the President it seems desirable, the construction of naval vessels within the terms and/or limits established by the London Naval Treaty of 1930 and of aircraft required therefor and construction of heavier-than-air aircraft and technical construction for the Army Air Corps and such Army housing projects as the President may approve, and provision of original equipment for the mechanization or motorization of such Army tactical units as he may designate: *Provided, however,* That in the event of an international agreement for the further limitation of armament, to which the United States is signatory, the President is hereby authorized and empowered to suspend, in whole or in part, any such naval or military construction or mechanization and motorization of Army units; *Provided further,* That this title shall not be applicable to public works under the jurisdiction or control of the Architect of the Capitol or of any commission or committee for which such architect is the contracting and/or executive officer.

SEC. 203. (*a*) With a view to increasing employment quickly (while reasonably securing any loans made by the United States) the President is authorized and empowered, through the Administrator or through such other agencies as he may designate or create, (1) to construct, finance, or aid in the construction or financing of any public-works project included in the program prepared pursuant to section 202; (2) upon such terms as the President shall prescribe, to make grants to States, municipalities, or other public bodies for the construction, repair, or improvement of any such project, but no such grant shall be in excess of 30 per centum of the cost of the labor and

materials employed upon such project; (3) to acquire by purchase, or by exercise of the power of eminent domain, any real or personal property in connection with the construction of any such project, and to sell any security acquired or any property so constructed or acquired or to lease any such property with or without the privilege of purchase: *Provided*, That all moneys received from any such sale or lease or the repayment of any loan shall be used to retire obligations issued pursuant to section 209 of this act, in addition to any other moneys required to be used for such purpose; (4) to aid in the financing of such railroad maintenance and equipment as may be approved by the Interstate Commerce Commission as desirable for the improvement of transportation facilities; and (5) to advance, upon request of the Commission having jurisdiction of the project, the unappropriated balance of the sum authorized for carrying out the provisions of the act entitled "An act to provide for the construction and equipment of an annex to the Library of Congress", approved June 13, 1930 (46 Stat. 583); such advance to be expended under the direction of such Commission and in accordance with such act: *Provided*, That in deciding to extend any aid or grant hereunder to any State, county, or municipality the President may consider whether action is in process or in good faith assured therein reasonably designed to bring the ordinary current expenditures thereof within the prudently estimated revenues thereof. The provisions of this section and section 202 shall extend to public works in the several States, Hawaii, Alaska, the District of Columbia, Puerto Rico, the Canal Zone, and the Virgin Islands.

(*b*) All expenditures for authorized travel by officers and employees, including subsistence, required on account of any Federal public-works projects, shall be charged to the amounts allocated to such projects, notwithstanding any other provisions of law; and there is authorized to be employed such personal services in the District of Columbia and elsewhere as may be required to be engaged upon such work and to be in addition to employees otherwise provided for, the compensation of such additional personal services to be a charge against the funds made available for such construction work.

(*c*) In the acquisition of any land or site for the purposes of Federal public buildings and in the construction of such buildings provided for in this title, the provisions contained in sections 305 and 306 of the Emergency Relief and Construction Act of 1932, as amended, shall apply.

(*d*) The President, in his discretion, and under such terms as he may prescribe, may extend any of the benefits of this title to any State, county, or municipality notwithstanding any constitutional or legal restriction or limitation on the right or power of such State, county, or municipality to borrow money or incur indebtedness.

SEC. 204. (*a*) For the purpose of providing for emergency construction of public highways and related projects, the President is authorized to make grants to the highway departments of the several States in an amount not less than $400,000,000, to be expended by such departments in accordance with the provisions of the Federal Highway Act, approved November 9, 1921, as amended and supplemented, except as provided in this title, as follows:

(1) For expenditure in emergency construction on the Federal aid highway system and extensions thereof into and through municipalities. The amount apportioned to any State under this paragraph may be used to pay all or any part of the cost of surveys, plans, and of highway and bridge construction including the elimination of hazards to highway traffic, such as the separation of grades at crossings, the reconstruction of existing railroad grade crossing structures, the relocation of highways to eliminate railroad crossings, the widenings of narrow bridges and roadways, the building of footpaths, the replacement of unsafe bridges, the construction of routes to avoid congested areas, the construction of facilities to improve accessibility and the free flow of traffic, and the cost of any other construction that will provide safer traffic facilities or definitely eliminate existing hazards to pedestrian or vehicular traffic. No funds made available by this title shall be used for the acquisition of any land, right-of-way, or easement in connection with any railroad grade elimination project.

(2) For expenditure in emergency construction on secondary or feeder roads to be agreed upon by the State highway departments and the Secretary of Agriculture: *Provided*, That the State or responsible political subdivision shall provide for the proper maintenance of said roads. Such grants shall be available for payment of the full cost of surveys, plans, improvement, and construction of secondary or feeder roads, on which projects shall be submitted by the State highway department and approved by the Secretary of Agriculture.

(*b*) Any amounts allocated by the President for grants under subsection (*a*) of this section shall be apportioned among the several States seven eighths in accordance with the provisions of section 21 of the Federal Highway Act, approved November 9, 1921, as amended and supplemented (which act is hereby further amended for the purposes of this title to include the District of Columbia), and one eighth in the ratio which the population of each State bears to the total population of the United States, according to the latest decennial census and shall be available on July 1, 1933, and shall remain available until expended; but no part of the funds apportioned to any State need be matched by the State, and such funds may also be used in lieu of State funds to match unobligated balances of previous apportionments of regular Federal-aid appropriations.

(*c*) All contracts involving the expenditure of such grants shall contain provisions establishing minimum rates of wages, to be predetermined by the State highway department, which contractors shall pay to skilled and unskilled labor, and such minimum rates shall be stated in the invitation for bids, and shall be included in proposals for bids for the work.

(*d*) In the expenditure of such amounts, the limitations in the Federal Highway Act, approved November 9, 1921, as amended and supplemented, upon highway construction, reconstruction, and bridges within municipalities and upon payments per mile which may be made from Federal funds, shall not apply.

(*e*) As used in this section the term "State" includes the Territory of Hawaii and the District of Columbia. The term "highway" as defined in the Federal Highway Act approved November 9, 1921, as amended and supplemented, for the purposes of this section, shall be deemed to include such main parkways as may be designated by

the State and approved by the Secretary of Agriculture as part of the Federal-aid highway system.

(*f*) Whenever, in connection with the construction of any highway project under this section or section 202 of this act, it is necessary to acquire rights-of-way over or through any property or tracts of land owned and controlled by the Government of the United States, it shall be the duty of the proper official of the Government of the United States having control of such property or tracts of land with the approval of the President and the Attorney General of the United States, and without any expense whatsoever to the United States, to perform any acts and to execute any agreements necessary to grant the rights-of-way so required, but if at any time the land or the property the subject of the agreement shall cease to be used for the purposes of the highway, the title in and the jurisdiction over the land or property shall automatically revert to the Government of the United States and the agreement shall so provide.

(*g*) Hereafter in the administration of the Federal Highway Act, and acts amendatory thereof or supplementary thereto, the first paragraph of section 9 of said act shall not apply to publicly owned toll bridges or approaches thereto, operated by the highway department of any State, subject, however, to the condition that all tolls received from the operation of any such bridge, less the actual cost of operation and maintenance, shall be applied to the repayment of the cost of its construction or acquisition, and when the cost of its construction or acquisition shall have been repaid in full, such bridge thereafter shall be maintained and operated as a free bridge.

SEC. 205. (*a*) Not less than $50,000,000 of the amount made available by this act shall be allotted for (A) national forest highways; (B) national forest roads, trails, bridges, and related projects; (C) national park roads and trails in national parks owned or authorized; (D) roads on Indian reservations; and (E) roads through public lands, to be expended in the same manner as provided in paragraph (2) of section 301 of the Emergency Relief and Construction Act of 1932, in the case of appropriations allocated for such purposes, respectively, in such section 301, to remain available until expended.

(*b*) The President may also allot funds made available by this act for the construction, repair, and improvement of public highways in Alaska, the Canal Zone, Puerto Rico, and the Virgin Islands.

SEC. 206. All contracts let for construction projects and all loans and grants pursuant to this title shall contain such provisions as are necessary to insure (1) that no convict labor shall be employed on any such project; (2) that (except in executive, administrative, and supervisory positions), so far as practicable and feasible, no individual directly employed on any such project shall be permitted to work more than thirty hours in any one week; (3) that all employees shall be paid just and reasonable wages which shall be compensation sufficient to provide, for the hours of labor as limited, a standard of living in decency and comfort; (4) that in the employment of labor in connection with any such project, preference shall be given, where they are qualified, to ex-service men with dependents, and then in the following order: (A) to citizens of the United States and aliens who have declared their intention of becoming citizens, who are bona fide residents of the political subdivision and/or county in which the work is to be performed, and (B) to citizens of the United States and aliens who have declared their intention of becoming citizens, who are bona fide residents of the State, Territory, or district in which the work is to be performed: *Provided*, That these preferences shall apply only where such labor is available and qualified to perform the work to which the employment relates; and (5) that the maximum of human labor shall be used in lieu of machinery wherever practicable and consistent with sound economy and public advantage.

SEC. 207. (*a*) For the purpose of expediting the actual construction of public works contemplated by this title and to provide a means of financial assistance to persons under contract with the United States to perform such construction, the President is authorized and empowered, through the Administrator or through such other agencies as he may designate or create, to approve any assignment executed by any such contractor, with the written consent of the surety or sureties upon the penal bond executed in connection with his contract, to any national or State bank, or his claim against the United States, or any part of such claim, under such contract; and any assignment so approved shall be valid for all purposes, notwithstanding the provisions of sections 3737 and 3477 of the Revised Statutes, as amended.

(*b*) The funds received by a contractor under any advances made in consideration of any such assignment are hereby declared to be trust funds in the hands of such contractor to be first applied to the payment of claims of subcontractors, architects, engineers, surveyors, laborers, and material men in connection with the project, to the payment of premiums on the penal bond or bonds, and premiums accruing during the construction of such project on insurance policies taken in connection therewith. Any contractor and any officer, director, or agent of any such contractor, who applies, or consents to the application of, such funds for any other purpose and fails to pay any claim or premium hereinbefore mentioned, shall be deemed guilty of a misdemeanor and shall be punished by a fine of not more than $1,000, or by imprisonment for not more than one year, or by both such fine and imprisonment.

(*c*) Nothing in this section shall be considered as imposing upon the assignee any obligation to see to the proper application of the funds advanced by the assignee in consideration of such assignment.

SUBSISTENCE HOMESTEADS

SEC. 208. To provide for aiding the redistribution of the overbalance of population in industrial centers $25,000,000 is hereby made available to the President, to be used by him through such agencies as he may establish and under such regulations as he may make, for making loans for and otherwise aiding in the purchase of subsistence homesteads. The moneys collected as repayment of said loans shall constitute a revolving fund to be administered as directed by the President for the purposes of this section.

RULES AND REGULATIONS

SEC. 209. The President is authorized to prescribe such rules and regulations as may be necessary to carry out the purposes of this title, and any violation of any such rule or regulation shall

be punishable by fine of not to exceed $500 or imprisonment not to exceed six months, or both.

ISSUE OF SECURITIES AND SINKING FUND

SEC. 210. (a) The Secretary of the Treasury is authorized to borrow, from time to time, under the Second Liberty Bond Act, as amended, such amounts as may be necessary to meet the expenditures authorized by this act, or to refund any obligations previously issued under this section, and to issue therefor bonds, notes, certificates of indebtedness, or Treasury bills of the United States.

(b) For each fiscal year beginning with the fiscal year 1934 there is hereby appropriated, in addition to and as part of, the cumulative sinking fund provided by section 6 of the Victory Liberty Loan Act, as amended, out of any money in the Treasury not otherwise appropriated, for the purpose of such fund, an amount equal to 2½ per centum of the aggregate amount of the expenditures made out of appropriations made or authorized under this act as determined by the Secretary of the Treasury.

REEMPLOYMENT AND RELIEF TAXES

SEC. 211. (a) Effective as of the day following the date of the enactment of this act, section 617 (a) of the Revenue Act of 1932 is amended by striking out "1 cent" and inserting in lieu thereof "1½ cents".

(b) Effective as of the day following the date of the enactment of this act, section 167 (c) (2) of such act is amended by adding at the end thereof a new sentence to read as follows: "As used in this paragraph the term 'benzol' does not include benzol sold for use otherwise than as a fuel for the propulsion of motor vehicles, motor boats, or airplanes, and otherwise than in the manufacture or production of such fuel."

SEC. 212. Titles IV and V of the Revenue Act of 1932 are amended by striking out "1934" wherever appearing therein and by inserting in lieu thereof "1935". Section 761 of the Revenue Act of 1932 is further amended by striking out "and on July 1, 1933" and inserting in lieu thereof "and on July 1, 1933, and on July 1, 1934,".

SEC. 213. (a) There is hereby imposed upon the receipt of dividends (required to be included in the gross income of the recipient under the provisions of the Revenue Act of 1932) by any person other than a domestic corporation, an excise tax equal to 5 per centum of the amount thereof, such tax to be deducted and withheld from such dividends by the payor corporation. The tax imposed by this section shall not apply to dividends declared before the date of the enactment of this act.

(b) Every corporation required to deduct and withhold any tax under this section shall, on or before the last day of the month following the payment of the dividend, make return thereof and pay the tax to the collector of the district in which its principal place of business is located, or, if it has no principal place of business in the United States, to the collector at Baltimore, Md.

(c) Every such corporation is hereby made liable for such tax and is hereby indemnified against the claims and demands of any person

for the amount of any payment made in accordance with the provisions of this section.

(d) The provisions of sections 115, 771 to 774, inclusive, and 1111 of the Revenue Act of 1932 shall be applicable with respect to the tax imposed by this section.

(e) The taxes imposed by this section shall not apply to the dividends of any corporation enumerated in section 103 of the Revenue Act of 1932.

SEC. 214. Section 104 of the Revenue Act of 1932 is amended by striking out the words "the surtax" wherever occurring in such section and inserting in lieu thereof "any internal-revenue tax". The heading of such section is amended by striking out "surtaxes" and inserting in lieu thereof "internal-revenue taxes". Section 13 (c) of such Act is amended by striking out "surtax" and inserting in lieu thereof "internal-revenue tax".

SEC. 215. (a) For each year ending June 30 there is hereby imposed upon every domestic corporation with respect to carrying on or doing business for any part of such year an excise tax of $1 for each $1,000 of the adjusted declared value of its capital stock.

(b) For each year ending June 30 there is hereby imposed upon every foreign corporation with respect to carrying on or doing business in the United States for any part of such year an excise tax equivalent to $1 for each $1,000 of the adjusted declared value of capital employed in the transaction of its business in the United States.

(c) The taxes imposed by this section shall not apply—

(1) to any corporation enumerated in section 103 of the Revenue Act of 1932;

(2) to any insurance company subject to the tax imposed by section 201 or 204 of such Act;

(3) to any domestic corporation in respect of the year ending June 30, 1933, if it did not carry on or do business during a part of the period from the date of the enactment of this Act to June 30, 1933, both dates inclusive; or

(4) to any foreign corporation in respect of the year ending June 30, 1933, if it did not carry on or do business in the United States during a part of the period from the date of the enactment of this Act to June 30, 1933, both dates inclusive.

(d) Every corporation liable for tax under this section shall make a return under oath within 1 month after the close of the year with respect to which such tax is imposed to the collector for the district in which is located its principal place of business or, if it has no principal place of business in the United States, then to the collector at Baltimore, Md. Such return shall contain such information and be made in such manner as the Commissioner with the approval of the Secretary may by regulations prescribe. The tax shall, without assessment by the Commissioner or notice from the collector, be due and payable to the collector before the expiration of the period for filing the return. If the tax is not paid when due, there shall be added as part of the tax interest at the rate of 1 per centum a month from the time when the tax became due until paid. All provisions of law (including penalties) applicable in respect of the taxes imposed by section 600 of the Revenue Act of 1926 shall, insofar as not inconsistent with this section, be applicable in respect of the taxes imposed by this section. The Commissioner may extend

the time for making the returns and paying the taxes imposed by this section, under such rules and regulations as he may prescribe with the approval of the Secretary, but no such extension shall be for more than 60 days.

(*e*) Returns required to be filed for the purpose of the tax imposed by this section shall be open to inspection in the same manner, to the same extent, and subject to the same provisions of law, including penalties, as returns made under title II of the Revenue Act of 1926.

(*f*) For the first year ending June 30 in respect of which a tax is imposed by this section upon any corporation, the adjusted declared value shall be the value, as declared by the corporation in its first return under this section (which declaration of value cannot be amended), as of the close of its last income-tax taxable year ending at or prior to the close of the year for which the tax is imposed by this section (or as of the date of organization in the case of a corporation having no income-tax taxable year ending at or prior to the close of the year for which the tax is imposed by this section). For any subsequent year ending June 30 the adjusted declared value in the case of a domestic corporation shall be the original declared value plus (1) the cash and fair market value of property paid in for stock or shares, (2) paid-in surplus and contributions to capital, and (3) earnings and profits, and minus (A) the value of property distributed in liquidation to shareholders, (B) distributions of earnings and profits, and (C) deficits, whether operating or nonoperating; each adjustment being made for the period from the date as of which the original declared value was declared to the close of its last income-tax taxable year ending at or prior to the close of the year for which the tax is imposed by this section. For any subsequent year ending June 30, the adjusted declared value in the case of a foreign corporation shall be the original declared value adjusted, in accordance with regulations prescribed by the Commissioner with the approval of the Secretary, to reflect increases or decreases (for the period specified in the preceding sentence) in the capital employed in the transaction of its business in the United States.

(*g*) The terms used in this section shall have the same meaning as when used in the Revenue Act of 1932.

SEC. 216. (*a*) There is hereby imposed upon the net income of every corporation, for each income-tax taxable year ending after the close of the first year in respect of which it is taxable under section 215, an excess-profits tax equivalent to 5 per centum of such portion of its net income for such income-tax taxable year as is in excess of 12½ per centum of the adjusted declared value of its capital stock (or in the case of a foreign corporation the adjusted declared value of capital employed in the transaction of its business in the United States) as of the close of the preceding income-tax taxable year (or as of the date of organization if it had no preceding income-tax taxable year) determined as provided in section 215. The terms used in this section shall have the same meaning as when used in the Revenue Act of 1932.

(*b*) The tax imposed by this section shall be assessed, collected, and paid in the same manner, and shall be subject to the same provisions of law (including penalties), as the taxes imposed by title I of the Revenue Act of 1932.

SEC. 217. (*a*) The President shall proclaim the date of—

(1) the close of the first fiscal year ending June 30 of any year after the year 1933, during which the total receipts of the United States (excluding public-debt receipts) exceed its total expenditures (excluding public-debt expenditures other than those chargeable against such receipts), or

(2) the repeal of the eighteenth amendment to the Constitution,

whichever is the earlier.

(*b*) Effective as of the 1st day of the calendar year following the date so proclaimed section 617 (*a*) of the Revenue Act of 1932, as amended, is amended by striking out "1½ cents" and inserting in lieu thereof "1 cent."

(*c*) The tax on dividends imposed by section 213 shall not apply to any dividends declared on or after the 1st day of the calendar year following the date so proclaimed.

(*d*) The capital-stock tax imposed by section 215 shall not apply to any taxpayer in respect of any year beginning on or after the 1st day of July following the date so proclaimed.

(*e*) The excess-profits tax imposed by section 216 shall not apply to any taxpayer in respect of any taxable year after its taxable year during which the date so proclaimed occurs.

SEC. 218. (*a*) Effective as of January 1, 1933, sections 117, 23 (*i*), 169, 187, and 205 of the Revenue Act of 1932 are repealed.

(*b*) Effective as of January 1, 1933, section 23 (*r*) (2) of the Revenue Act of 1932 is repealed.

(*c*) Effective as of January 1, 1933, section 23 (*r*) (3) of the Revenue Act of 1932 is amended by striking out all after the word "Territory" and inserting a period.

(*d*) Effective as of January 1, 1933, section 182 (*a*) of the Revenue Act of 1932 is amended by inserting at the end thereof a new sentence as follows: "No part of any loss disallowed to a partnership as a deduction by section 23 (*r*) shall be allowed as a deduction to a member of such partnership in computing net income."

(*e*) Effective as of January 1, 1933, section 141 (*c*) of the Revenue Act of 1932 is amended by striking out "except that for the taxable years 1932 and 1933 there shall be added to the rate of tax prescribed by sections 13 (*a*), 201 (*b*), and 204 (*a*), a rate of three fourths of 1 per centum" and inserting in lieu thereof the following: "except that for the taxable years 1932 and 1933 there shall be added to the rate of tax prescribed by sections 13 (*a*), 201 (*b*), and 204 (*a*), a rate of three fourths of 1 per centum and except that for the taxable years 1934 and 1935 there shall be added to the rate of tax prescribed by sections 13 (*a*), 201 (*b*), and 204 (*a*), a rate of 1 per centum."

(*f*) No interest shall be assessed or collected for any period prior to September 15, 1933, upon such portion of any amount determined as a deficiency in income taxes as is attributable solely to the amendments made to the Revenue Act of 1932 by this section.

(*g*) In cases where the effect of this section is to require for a taxable year ending prior to June 30, 1933, the making of an income-tax return not otherwise required by law, the time for making the return and paying the tax shall be the same as if the return was for a fiscal year ending June 30, 1933.

50413—34——20

(*h*) Section 55 of the Revenue Act of 1932 is amended by inserting before the period at the end thereof a semicolon and the following: "and all returns made under this act after the date of enactment of the National Industrial Recovery Act shall constitute public records and shall be open to public examination and inspection to such extent as shall be authorized in rules and regulations promulgated by the President."

SEC. 219. Section 500 (*a*) (1) of the Revenue Act of 1926, as amended, is amended by striking out the period at the end of the second sentence thereof and inserting in lieu thereof a comma and the following: "except that no tax shall be imposed in the case of persons admitted free to any spoken play (not a mechanical reproduction), whether or not set to music or with musical parts or accompaniments, which is a consecutive narrative interpreted by a single set of characters, all necessary to the development of the plot, in two or more acts, the performance consuming more than 1 hour and 45 minutes of time."

APPROPRIATION

SEC. 220. For the purposes of this act, there is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, the sum of $3,300,000,000. The President is authorized to allocate so much of said sum, not in excess of $100,000,000, as he may determine to be necessary for expenditures in carrying out the Agricultural Adjustment Act and the purposes, powers, and functions heretofore and hereafter conferred upon the Farm Credit Administration.

SEC. 221. Section 7 of the Agricultural Adjustment Act, approved May 12, 1933, is amended by striking out all of its present terms and provisions and substituting therefor the following:

> SEC. 7. The Secretary shall sell the cotton held by him at his discretion, but subject to the foregoing provisions: *Provided*, That he shall dispose of all cotton held by him by March 1, 1936: *Provided further*, That notwithstanding the provisions of section 6, the Secretary shall have authority to enter into option contracts with producers of cotton to sell to the producers such cotton held by him, in such amounts and at such prices and upon such terms and conditions as the Secretary may deem advisable, in combination with rental or benefit payments provided for in part 2 of this title.
>
> Notwithstanding any provisions of existing law, the Secretary of Agriculture may in the administration of the Agricultural Adjustment Act make public such information as he deems necessary in order to effectuate the purposes of such act.

TITLE III—AMENDMENTS TO EMERGENCY RELIEF AND CONSTRUCTION ACT AND MISCELLANEOUS PROVISIONS

SECTION 301. After the expiration of 10 days after the date upon which the Administrator has qualified and taken office, (1) no application shall be approved by the Reconstruction Finance Corporation under the provisions of subsection (*a*) of section 201 of the Emergency Relief and Construction Act of 1932, as amended, and

(2) the Administrator shall have access to all applications, files, and records of the Reconstruction Finance Corporation relating to loans and contracts and the administration of funds under such subsection: *Provided*, That the Reconstruction Finance Corporation may issue funds to a borrower under such subsection (*a*) prior to January 23, 1939, under the terms of any agreement or any commitment to bid upon or purchase bonds entered into with such borrower pursuant to an application approved prior to the date of termination, under this section, of the power of the Reconstruction Finance Corporation to approve applications.

DECREASE OF BORROWING POWER OF RECONSTRUCTION FINANCE CORPORATION

SEC. 302. The amount of notes, debentures, bonds, or other such obligations which the Reconstruction Finance Corporation is authorized and empowered under section 9 of the Reconstruction Finance Corporation Act, as amended, to have outstanding at any one time is decreased by $400,000,000.

SEPARABILITY CLAUSE

SEC. 303. If any provision of this act, or the application thereof to any person or circumstances, is held invalid, the remainder of the act, and the application of such provision to other persons or circumstances, shall not be affected thereby.

SHORT TITLE

SEC. 304. This act may be cited as the "National Industrial Recovery Act."

Approved, June 16, 1933, 11:55 a.m.
